

⑦

The spirit of collaboration

CP Road Map Operations

Tom Cackler, Director
National Concrete Pavement
Technology Center, Iowa State

National CP Road Map Program
Executive Committee Meeting
Kansas City, Missouri
March 28, 2007

Today's Priorities

- ✓ Develop basic collaboration framework
- ✓ Identify priority tracks and team leaders
- Decide, in general, how the E.C. will conduct business (includes funding and database issues)

DRAFT OPERATIONS MANUAL

2

We've made it through two of our priorities for the day.

** We've made some decisions that will help us develop a structure for collaborating.

** We've verified which tracks are priority, and have identified some team leaders.

Our third task is big—making some decisions about the nitty gritty of how we'll operate as a committee, as a collaborative team.

The questions we need to address are listed in the draft operations manual, no. 7 tab in your handouts.
